

## INTRODUCTION

In this constantly changing world, speed and reliability are the keys to international exchanges. Here Shipping & handling cost account for more than 20% of the commodity value. The concern of quality service and proactive agents is more imperative than ever before.

Established since 1972, Liberty today stands out in the shipping arena providing total logistic solutions from 14 locations in India.

By virtue of our achievements, we are patronized by who's who to who's not - in the public and corporate sector. Liberty has been able to deliver optimum service in terms of quality and cost to its clients.

It takes a lot to keep our Clients happy year after year and it doesn't take much to upset them either. That's why we go out of our way to ensure "everything they want, is everything they get" and seeing them happy makes us proud.

Sincerely yours,

*"Growth driven by values in pursuit of excellence"*
